

It gives me great pleasure to introduce the College of Medical Laboratory Technologists of Alberta's new Executive Director/Registrar (ED/R), Dr. Maggie Fulford. Maggie joins us with a wealth of experience with regulated health professionals and the *Health Professions Act*. She was Registrar for the Alberta College of Occupational Therapists for seven years. Prior to that she served as a Tribunal Member with the Appeals Commission for Alberta Workers' Compensation, the Chair of Horse Racing Alberta Tribunal, and the Chair of Alberta Occupational Health and Safety. Maggie has a passion for the *Health Professions Act* and a commitment to excellence and leadership in health care regulation and has provided training to Albertans and regulated members on all aspects of the complaint process.

Maggie is in the unique position of not only working as an ED/R in a regulated health profession, but also in the capacity of a volunteer as a public member on the Boards of Directors of the College and Association of Registered Nurses and the Alberta Press Council. In addition to her broad administrative, regulatory, and tribunal experience, she has front line experience in health care delivery as a Clinician in Chiropractic and Occupational Therapy.

Maggie holds a Certificate in Tribunal Administrative Justice with the Alberta Foundation of Administrative Justice, a Bachelor of Science in Occupational Therapy, a Bachelor of Arts in Psychology/Sociology, and a Doctor of Chiropractic. She is also an Immigration and Refugee Practitioner, has completed Information Access and Protection of Privacy Certification, and is an Impairment Rater certified in AMA Guidelines of Impairment. Maggie can be contacted by email at cmltaregistrar@cmlta.org.

The CMLTA is responsible for ensuring the public receives competent, ethical medical laboratory services and Maggie and the CMLTA Council and staff share this commitment to Albertans and regulated members.

Sincerely,
Shelly Stevens

2018 CMLTA President
