Medical Laboratory Technologist, Microbiology Kamloops, British Columbia

Our Microbiology department is seeking a flexible and reliable Medical Laboratory Technologist to join their welcoming team at the Royal Inland Hospital (RIH) in Kamloops.

The RIH Lab is one of our largest full-service 24/7 laboratories, employing a very large team of generalist and specialist Lab professionals that work collaboratively within the hospital and other sites. As the Micro MLT, you can expect to work in a team based environment and perform a variety of duties within the microbiology, histology and cytology areas of the Lab such as: routine and/or complex tests, utilizing manual procedures and automated instruments, including PCR testing, receiving specimens, entering data into the LIS, and validating/reporting test results.

This is a permanent 0.8fte position. Days of work are rotating and shifts are 8hr day, evening and night shifts. Interior Health offers financial help with relocation, competitive compensation, generous benefits and employee services to support you at every stage of your career.

Kamloops is known as a four-season adventure playground, where you can enjoy long hot summers and milder winters. With a population of 90,000 Kamloops offers all the amenities of a big city including great restaurants, shopping, businesses, wonderful parks and recreation facilities as well as easy access to spectacular winter sports at Sun Peaks resort.

Qualifications

- Graduation from an approved Medical Laboratory Science Program
- Current certification with the Canadian Society for Medical Laboratory Science (CSMLS) and eligible for membership with the BC Society of Laboratory Sciences (BCSLs) and/or CSMLS
- One (1) year recent related experience Previous Microbiology experience would be considered an asset
